## For People And The Planet

This year marks the 17th anniversary for World Centric, and a pivotal moment for the company and the world. The planet's ecological systems continue to be extremely stressed due to human activities, and the cycle of poverty is exacerbated even further by the pandemic and economic inequities.

Companies need to make a difference by working to provide for basic necessities like food, water, sanitation, education, healthcare and more. They also need to effect environmental change, especially in communities where resources aren't available to mitigate environmental degradation.

Today, just like 17 years ago, we continue to uphold the same mission and values to be of service to people and the planet in all that we do, and elevate awareness of global sustainability issues.

Looking ahead, World Centric is committed to innovating compostable, plant-based materials and packaging to help reduce the environmental impact of the foodservice industry on the planet.

# NEW NOTREE® PAPER TAKEOUT CONTAINERS AND FRY CUPS

World Centric is proud to introduce eleven innovative new NoTree® paper containers and fry cups to its tree-free, bio-based and compostable collection. The expanded NoTree items provide more sustainable packaging alternatives to operators.

World Centric's line of NoTree® hot cups, cold cups, and bowls is growing! The 100% compostable\* solution that doesn't involve cutting down trees and using petroleum plastic linings is now expanding into a full range of packaging and sizes to support your carryout and delivery needs while supporting your sustainability objectives. Plus all of our cups, bowls and containers are customizable with our custom printing program. See page 38 for more details.

### NEW NOTREE FOLDED TAKEOUT CONTAINERS

Item #	Description	Case Count	Pack Count
TO-NT-1	5.2x4.2x2.5" (26 oz) #1 NoTree Container	450	50
TO-NT-8	6.9x5.5x2.5" (46 oz) #8 NoTree Container	300	50
TO-NT-2	8.5x6.2x1.85" (50 oz) #2 NoTree Container	200	50
TO-NT-3	8.7x6.25x2.5" (65 oz) #3 NoTree Container	200	50
TO-NT-4	8.7x6.5x3.5" (95 oz) #4 NoTree Container	160	40

### NEW NOTREE CONTAINERS WITH PLA WINDOW

Item #	Description	Case Count	Pack Count
SW-NT-M	4.85x4.85x2.85" NoTree Medium Sandwich Wedge with PLA Window	500	250
TO-NT-1W	5.4x4.5x2.5" (26 oz) #1 NoTree Container with PLA Window	200	50
TO-NT-8W	7x5.7x2.5" (46 oz) #8 NoTree Container with PLA Window	200	50
TO-NT-3W	8.7x6.4x2.5" (65 oz) #3 NoTree Container with PLA Window	200	50

### NEW NOTREE FRENCH FRY SCOOP CUPS

Item #	Description	Case Count	Pack Count
FC-NT-55	5.5 oz NoTree French Fry Scoop Cup	1000	50
FC-NT-75	7.5 oz NoTree French Fry Scoop Cup	1000	50

\*New NoTree items meet ASTM D6400/D6868 standards for compostability in commercial composting facilities. BPI certification pending.

# FIBER CLAMSHELLS & CONTAINERS

Bamboo, sugarcane bagasse and wheat straw fibers can be used to make sustainable alternatives to polystyrene and plastic tableware. Some of these materials are considered residue after crop processing and are often burned. World Centric sees these fibers as a valuable resource to make products like plates, take-out containers, bowls, and other compostables.

# FIBER CUTLERY AND LARGE SERVING UTENSILS

World Centric is proud to bring you a new generation of cutlery made from unbleached bamboo, sugarcane and wheat straw plant fibers, not plastic. From spoons, forks and knives, to serving utensils and even sporks, our durable, fully compostable fiber cutlery is the most sustainable answer to providing serving and eating utensils when only a plastic free solution will do for your guests.

# World Centric FIBER CUTLERY

Unique design  
sustainably made by  
World Centric

Compostable in  
a commercial  
compost facility\*

Innovative,  
lightweight and  
durable design

Helps reduce unrecyclable  
plastic in the environment

Our new cutlery is made from unbleached plant fiber, not plastic. From spoons, forks and knives, to serving utensils and even sporks, our durable, fully compostable fiber cutlery is the most sustainable disposable cutlery on the market. Along with our TPLA cutlery made from plant-based plastic, our fiber cutlery lessens our impact on the environment and gives our customers one more alternative to regular petroleum based plastic cutlery which is not compostable or recyclable.

## How does World Centric fiber cutlery compare to plastic cutlery?

	World Centric Fiber Cutlery	Plastic Cutlery
 <b>Material</b>	Made of renewable plant fibers from sugarcane bagasse and fast-growing bamboo	Made of non-renewable fossil fuels such as petroleum oil and natural gas
 <b>Planet Health</b>	Made of plants that absorb carbon while growing	Plastics manufacturing negatively affects air quality, public health, and the climate
 <b>End of Life</b>	Commercially compostable, even with food residue *	Recycling is unlikely due to size and contamination with food residue

# Our third party verifications and testing

We take our efforts to create a better world seriously. We test our products using the American Society for Testing and Materials (ASTM) standards to ensure they break down in commercial composting facilities. We obtain our tree fiber from certified responsibly harvested forests. Additionally, we test for allergens and quality.

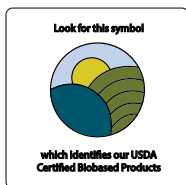

## Biodegradable Products Institute (BPI)

BPI is a third-party organization that reviews and certifies commercially compostable products that meet ASTM standards for compostability. To learn more about BPI, please visit [bpiworld.com](http://bpiworld.com).

## TÜV AUSTRIA

TUV Austria is a third-party organization that reviews and certifies compostable products. Our TÜV certifications include OK Compost Home for our PLA bags and OK Compost Industrial for our fiber containers. For more information, visit [tuv-at.be](http://tuv-at.be).

## USDA BioPreferred Products

The USDA Biobased Product label indicates that a product has been independently certified to meet USDA BioPreferred program standards for biobased content. Biobased products are composed either partly or entirely of renewable plant materials. Visit [biopreferred.gov](http://biopreferred.gov) to learn more.

## Forest Stewardship Council® (FSC®)

FSC® certification is a market-based tool that supports responsible forest management worldwide. FSC certified forest products are verified from the forest of origin through the supply chain. The FSC label ensures that the forest products used are from responsibly harvested and verified sources. Visit [fsc.org](http://fsc.org) for more information.

## Compost Manufacturing Alliance (CMA)

CMA is a third-party organization that utilizes a nationwide partnership of compost manufacturing facilities to provide field disintegration testing for food service products.

## Gluten Testing

Our fiber plates have been tested by Anresco Laboratories, an independent facility for the measurement of cereal gluten at low levels, nominally within a range of 5-80 PPM, both in our raw materials and finished food products. Analytical Results: Wheat Straw Plates: <5 ppm

For a complete list of third-party reports and test results including fair labor audits, food safety audits, and product testing, please visit [worldcentric.com/reports](http://worldcentric.com/reports).

# Product benefits and specifications for use

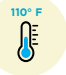

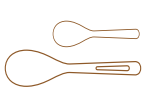

## Sustainable Materials

The materials we use to make our compostable packaging are chosen for their sustainability. Our paper containers and molded fiber products are made from annually renewable plants such as bamboo, sugarcane bagasse and wheat straw, which also sequester carbon while growing. Paper cups, straws and bowls are made from sustainably sourced paper from FSC® certified sources.

## Waste Reduction

When commercially composted, our foodservice ware diverts organic waste from the landfill and composts in 2-4 months. When compostable packaging is accepted, more food waste ends up in the compost where it belongs. Composting also keeps waste disposal local and creates jobs in the local economy. Composting is a great way to reduce greenhouse gas emissions and improve soil health.

Hot Items 	Product	Heat Resistance	Freezer Safe?	Time to Compost*
	Plant Fiber Containers and Cutlery	Suitable for foods up to 450° F; Oven and microwave safe	Yes	2-3 months

# OUR PRODUCTS ARE RESPONSIBLE FROM START TO FINISH

## Molded Fiber Containers & Cutlery

- Made from unbleached bamboo, sugarcane and wheat straw plant fibers
- Bio-lining (where indicated) made from plants
- Gluten free
- Conform to FDA guidelines for food use

## Paper Containers, Cups & Bowls

- NoTree® containers, cups and bowls made from crop residues and alternative fibers like bamboo and sugarcane
- White cups and bowls made from FSC® certified paper from responsibly managed forests
- Bio-based linings where indicated
- Conform to FDA guidelines for food use
- Not microwavable

## Food Scraps, Kitchen and Yard Waste Bags

- Made from synthetic and starch-based plastics
- Certified OK Compost Home by TÜV AUSTRIA
